Here at Causeway Pallets & Transport we store a wide variety of pallet types. This document shows the range of pallets we supply our customer throughout the UK and Ireland.

Quality control

Prior to a pallet entering stock it is thoroughly checked and graded by an experienced quality control crew to ensure the highest standards are maintained. High levels of stock are maintained throughout the year and careful attention is paid to customer trends to ensure that all orders are satisfied.

Pallet clearance

Causeway offer the service of pallet clearance. All redundant pallets are removed and taken to our depot for grading. A credit is subsequently shown on your account. All pallets entering our depot are checked, good pallets are placed into stock, broken or damaged pallets are repaired. Scrap pallets are sent for recycling

Pallet repair

All pallets that haven't met our strict quality control criteria are repaired to the manufacturers original specification. Causeway ensure all repairs are carried out using new grade 1 timber and steel ring-shanked nails. A trained and qualified pallet repairer carries out these repairs, always adhering to stringent safety procedures set in place and regulated by the management.

Grading

Each company has different requirements, which is why Causeway offer a wide range of Grades, from this selection you are sure to pick a product which is not only cost effective but suitable for your particular needs.

Service and delivery

We are constantly searching for the opportunity to provide our growing number of valued customers with an even better service. Quality, efficiency and value for money is the key to our success and this formula is never compromised. Causeway prides itself on offering a full and professional service to each and every customer, whether they be a large multi-national or an independent company.

UK Pallets

Grade 1 Perimeter base - 1200 x 1000mm

A top quality UK specification pallet. Accepted in most Regional Distribution Centres throughout the UK. A very competitive alternative to a new pallet.

- * Food grade
- * Short or long boarded top deck
- * Flush perimeter base
- * Heavy duty 1 tonne lift
- * 4-Way entry pallet

Grade 2 Perimeter base - 1200 x 1000mm

A good specification pallet accepted throughout the UK. A cost effective alternative to a Grade 1 offering equivalent strength in construction.

- * General warehousing/distribution
- * Short or long boarded top deck
- * Flush perimeter base
- * Heavy duty 1 tonne lift
- * 4-Way entry pallet

Grade 3 Strapped - 1200 x 1000mm

A sturdy pallet offering a cheaper alternative to Grade 1 and 2. Can be used either way in racking systems.

- * Warehousing/distribution
- * Strapped perimeter base
- * Medium weight with 750kg lift
- * Versatile and economical
- * 4-Way entry pallet

Grade 3 Legged - 1200 x 1000mm

A very economical medium weight pallet. Ideal for handling with manual or electric pump trucks.

- * Warehousing/distribution
- * Legged open ended configuration
- * Medium weight with 750kg lift
- * Versatile and economical
- * 4-Way entry pallet

Grade 3 VMF - 1200 x 1000mm

The winged top allows shrink-wrap to grip under top deck which enables easy access with a firm hold. A strong perimeterbase at a low rate.

- * Warehousing/distribution
- * All blocks slightly inset
- * Heavy weight with 1 tonne lift
- * Flush perimeterbase
- * 4-Way entry pallet

UK Pallets cont
